

1/1/11

4. State whether or not the following
elements form a set if they have
reason.

Q15 All the odd numbers in the world
look.

Ans No, some problems may be very
hard and others may not
be easy to solve. Other problems
objects are not well defined.

Q16 All the three sided figures.

Ans Yes.

Q17 The first five counting numbers.

Ans Yes.

Q18 All the tall boys of America.

Ans No it is not mentioned that the
boys must be taller than ^{6'0"} 6'0" tall.

If we consider three logs A, B and C: log A can be taller than B but not necessarily taller than C.
