

Baniyan tree

The national ~~Tree~~ ^{Tree} of India is the Baniyan tree. it usually refer's specially to the Indian banyan or fig *Ficus benghalensis*. It is a fig that starts its life as *Clitorea*.

The ~~raw~~ leaves of the banyan tree's are large leathery, glossy green and elliptical in shape.

The huge tree of Baniyan towers over its neighbour and has the widest roots among all trees. its size and leafy shelter are valued in India as the Place of Rest and Reflection.
