

Ch-8 (Animals everywhere)

Notes:-

- When the air reaches the lungs an ~~even~~ exchange of gases takes

Hw

10.12.21

mention some simple machine & write 1 use of each

1. The screw:-

- The screw is a simple machine used to hold things tightly.

2. The pulley:-

- The pulley is ^a ~~used~~ small wheel with a groove around its other edge. to hold the rope in ~~one~~ ^{one} position

3. The wheel & the axle:

- We know that ~~the~~ Pushing a load on wheel is easier than carrying it. But the wheel by itself is not a simple machine
