Q "What freedom means to me"

Ans. Freedom is something which is not so easy to define. It is very easy to express & feel.

By freedom I mean when I have the right to speak, every body rich or poor. Boy or girl should get equal Privilege in the society. Right to education & medical care for all levels of people in society. more over respect for all in respect of cast, religion or gender.

Then only we can enjoy the freedom in true sense

Thank You ☺
