Rainy season

Rainy season comes at the end of the summer. It begins in June and goes till September. It is the season of joy and happiness. Women at home cooks delicious dishes specially spicy items, specially by heating the raw corn. Rains helps in growth of plants and trees. Heavy rains also destroys crops. The rainy season is also blessing to the farmers as many crops depend on the amount of rainfall during monsoon. Rainy season also being loved for mangoes. It brings a beautiful weather with a cool breeze and rain showers. It is welcomed by all people including kids. So that's why I like rainy season.
