

A Paragraph on rainy season

The rainy season, also known as the monsoon season begins in the middle of June and continues up till early September. It comes after the end of the scorching summer season. It's the time when most of the rainfall occurs, the sky is generally cloudy throughout the season. This season is primarily categorized by heavy incessant rainfalls and humid condition in some areas. It is welcomed mostly by people of all age groups including kids, adults and older people. Kids come out and play different games. Rainy day for family means spending quality time together by having hot snacks like 'Pakoras' and 'Jalebi' over tea time. I think rainy season is liked by everyone as I like it very much. People, especially farmers, in India worship Lord Indra a Hindu deity to rain for the wellness of this season crops.

Enjoying the rain with cousins is the best part. We have so much fun together. I simply love rainy days.
