Sir,

Sub: Water logging issue in our area.

Through the columns of your esteemed/reputed newspaper, I am writing this letter to bring to your kind notice the issue of poor drainage in our area.

Since many days this waterlogging issue has caused much inconvenience to the residents. The problems are becoming serious day by day. You will be shocked to know that almost after a month of heavy rainfall, rainwater was not been drained. The high areas are clear. The problem is with the low areas. The stagnated water has been causing serious health issues. We have been writing letters requesting the repairing of drainage system. I hope you will look into this matter seriously and take prompt action.

Yours Truly,
Rani.
