Ch-2  
Assessment

- (1) Difference in rock formations.
- (2) Population density.
- (3) Theory of plate tectonics.
- (4) Seism.
- (5) Glaciation
- (6) Divergent boundaries.
- (7) None of these.
- (8) (C) The plates may form divergent boundary.
- (9) (D) All of the above.
- (10) (C) Peninsula.
- (11) (C) The peninsular plateau.
- (12) (b) Gondwana land.
- (13) (C) Europe.
- (14) (C) Sedimentary rocks accumulated the tethys geosyncline were folded.
- (15) (a) The himalayan.
- (16) (a) The himalayan.
- (17) (C) The peninsular plateau.
- (18) (a) The Himalayan mountains.
- (19) (a) The Amavatis
- (20) (d) The Himalayan
- (21) (a) The himadri.
- (22) (a) Great himalayan on himadri.
- (23) (b) Kanchenjunga.
- (24) (a) Bara lapcha la and gimpela.

- (25) (C) Shivalik  
(26) (A) Karet  
(27) (B) The himachal  
(28) (C) The shivalik  
(29) (D) Duns  
(30) (A) Punjab himalayas  
(31) (B) Joradri Hills and chevally hills  
(32) (A) Lakshdeep  
(33) (B) Pau  
(34) (B) Terai  
(35) (A) Both (A) and (R) are true and (R) explain (A)  
(36) (A) Myoman  
(37) (D) Eight jumps  
(38) (B) Both (A) and (D) are true and (R) is the correct  
explain of  
(39) (B) Both (A) and (R) are true and (R) is not the correct explanation  
(40) (C) IST, Bhutan, Meghalaya, Gulf of Mannar  
(41) (D) Punjab
