Ch-2

Physical quantities and measurement.

B. Short / Long answer questions.

1. What is measurement? How is a measurement expressed?

ans- Measurement is a comparison of an unknown quantity with a known fixed quantity of the same kind. A measurement is expressed as unit = u and number = n :
Measurement = $n \times u = nu$

3. Q Name four basic measurements in our daily life.

ans- The four basic measurement in our daily life are :

→ Length

→ Mass

→ Time

→ Temperature.
