

Topic - A world without oil

- within five days of Oil depletion, the basic human needs will become out of reach
- food terminals across the world will be closed.
- Terminals from which several hundred trucks used to leave groceries and fruits will be sitting idle without the oil
- The groceries will become scarce and costly.
- Around 30% of fresh fruit and vegetables don't make it to shelves due to small imperfections but during a crisis everything will be up for grabs.
