

Word problems

5) During class picnic, Rama bought a packet of class chips for ₹25.50, a coke for ₹36.25, and a chocolate for ₹10. How much money did she spend?

Ans. Cost of packet of chips = ₹25.50

Cost of coke = ₹36.25

Cost of chocolate = ₹10

Amount of money she spent = ₹

₹	P
25	50
36	25
+ 10	
71	75

So, she spent ₹71.75.

6. Radha was having ₹1000. She bought a dress for ₹599.50. How much money does she have now?

Ans. Amount of money Radha was having = ₹1000

She bought a dress for ₹ = ₹599.50

Amount of money she have now =

$$\begin{array}{r}
 \text{₹} \quad \text{p} \\
 1000 \quad 00 \\
 - 599 \quad 50 \\
 \hline
 400 \quad 50
 \end{array}$$

So, she have 400.50 now.
