

Write three points on why people in Thar desert use less water in compare to other parts of India.

- Ans →
- i → Thar desert is a hot place so if we need to live in a desert ~~we~~ with a storage shortage of water <sup>we</sup> so need to use less water.
  - ii → If we are lucky and find a oasis so it can be that if we use more water so may <sup>get</sup> run of water <sup>we</sup> so need ~~to~~ find use less water.
  - iii → As it rains very less in a year but if <sup>it rains</sup> also <sup>it rains</sup> so it <sup>has</sup> a lot chances chances that the water may ~~ev~~ evaporate from the heat of the sun or it also can be before evaporating it may go deep inside the soil as sand cannot hold water so use it less were ever you find water.
