

## Solar Energy

Solar energy is the energy that we get from the sun. It can be used in several ways

1. Railroads, Subways, buses, planes, cars and roads can be powered by solar energy hence providing solar transportation.

2. Solar energy is used to charge consumer electronics like cell phone, tablet etc.

3. Solar lights are used everywhere from home landscaping and security lights to road signs and street lights.

4. Solar ventilation solutions such as solar attic fans can reduce expensive ACs by keeping our homes cool during the summer.
