Paragraph Indian Rivers

Date _____

Page _____

Rivers of India plays a very important role in the lives of Indian. Rivers provide water which people use for cultivation of crops, for the purpose of livelihood. Rivers are the reason because of which large numbers of cities are situated on the bank of Rivers. Rivers also plays an important role in Hindu Dharma. People of India consider rivers as holy. They play an important role in promoting trade and agriculture.

Indians rivers are like temple where they do prayer. There are seven major rivers in India along with their tributaries. The largest power system of rivers is in Bay of Bengal and some of the rivers empty themselves in Arabian Sea.
