2. One day, Xian got up early to go to nearby forest of plum fruits and berries. While going to the forest, he picked up a big basket from uncle Tom's shop. When he reached the forest, the sun was shining brightly. There were pretty flowers everywhere and beautiful butterflies were hovering over them. Xian ran after them and chased them from one flower to flower. While he was playing, a fox slowly crept up to him.

Xian saw the fox cubs. Whoosh!
Sparks flew and two cubs appeared.
Seeing the cute cubs, the fox
became very happy and started
licking them. The cubs were happy
to find a mother. After the fox
left with the two cubs, Xian
quickly picked up his basket
and started picking the berries
and fruits. Soon his basket
was full and returned home
happily.
