

# FLAG OF GREENLAND

1.

2. WHY ice berge are dangerous for ships?

Ans The ice berge are dangerous for ships because the sharp, hidden ice <sup>that is very hard</sup> can easily break or tear and make a hole at any part of the ship.

The ice berge are dangerous for ships because the sharp hidden ice that is very hard easily break or tear and make a hole at any part of ship and the water will ~~fill~~ fill up. So that is why ice berge are dangerous for ship.
