

1) What do you mean by collective identity?  
Ans Collective identity means identified as a combined group of people. This thought led to nationalist movement in India. The idea of nationalism spread to different parts of India by the leaders of Congress.

2) How collective identity helps us in maintaining peace in our country?

Ans When collective identity is spread as nationalism among the mass of a country they feel identical to each other. People share their problems among themselves and solve them ~~peacefully~~ peacefully. So ~~Nationalism~~ nationalism brings peace and tranquility in the society.

3) 'India is a land of diversity.' Explain?

Ans India is a land of diversity. People of different languages, different colour, different cultures and

different religions are living together in india. Climate condition of india also varies from place to place like cold in Kashmir, hotness in ~~Rest~~ South india. different colours of peoples are also live in india. In south we find black people, north and north-east dwelling place of a ~~some~~ red indians.
