Homework

Q1) Write a short note sedimentary Rocks with example. (3)

Sedimentary rocks found along the plains and young fold mountains have deposits of non-metallic minerals. Limestone deposits in the Caucasus Mountains of France, manganese deposits in Ukraine and Georgia and the phosphate belts of Algeria are some examples. Fossil fuels such as coal and petroleum are also found in between layers of sedimentary rocks.

Q2) Give comparison between advantages and disadvantages of Wind Energy (3)

Advantages of Wind Energy:

2021/10/10 13:27

→ It is a free and with modern technology it can be captured efficiently.

→ Once the wind turbine is built the energy it produces does not cause

green house gases or other pollutants.

→ Wind turbines have a role to play in both the developed and third world.

Disadvantages of Wind Energy:-

→ Wind turbines are noisy. Each one can generate the same level of noise as a family car travelling at 70 mph.

→ When wind turbines are being manufactured some pollution is produced.

Q3) Explain importance of Agriculture in day-to-day life? (2)

Agriculture is the main source of national income for most developing countries. However, for developed countries, agriculture contributes a smaller percentage to their national income. The agricultural sector provides food for domestic

animals. The cow provides people with milk which is a form of protective food.

(ii) Why agriculture is considered as a primary activity? (2)

Agriculture is an occupation in which grains, fruits, vegetables, flowers and livestock are grown. It is a primary operation because natural resources are directly involved in it.

(ii) Name some festivals that celebrate agriculture in our country. (1)

Some festivals that celebrate:

- Makar Sankranti
- Pongal
- Baisakhi
- Lohri
- Onam
- Bihu.
