- A metal used in electrical wires and coins
- An igneous rock used for polishing teeth

TO VISIT

I. Visit any old monument or building.

Visit any old monument or building in your town and find out about the material used to build it. Write your findings in your notebook.

A life skill

I. Save precious resources.

We must save 'cooking gas' that comes from petroleum. Check if these are being followed in your kitchen to save this fuel.

Is the pan covered with a lid during the cooking of food?

Is the cooking done in a pressure cooker? (It takes less time and hence saves fuel.)
