Saathi

Date ___/___/___

The tiger is a national animal but it is endangered so what is being done to protect them.

Write an article based on your findings.

Ans: Scientist estimate that tigers have lost 85% to 93% of their habitat land. With a smaller habitat to roam tigers have become more of a problem for human populations, leading to more lethal confrontations for wild tigers. This has led to farmers killing many tigers to protect their livestock.

Date ____/____/____

2 To save tigers we need to

- Protect tigers and their habitat.
- Build capacity in range states.
- Reduce human-tiger conflict
- Conduct scientific research on tigers to help inform conservation strategies.
- Promote tiger-friendly policies
- Monitor tiger numbers, population trends, and threats to tigers and their habitats.
