## Exercise - 10 (E)

Date \_\_\_\_\_

Page \_\_\_\_\_

F. Ans - A train travels = 6 hours and 20 minutes  
since 1 hour = 60 minutes  
so, 6 hours =  $6 \times 60$  minutes = 360 minutes  
Thus, 6 hours 20 minutes =  $3600 \text{ min} + 20 \text{ min}$   
3620 minutes  
so, 3620 minutes it travels.

G. Ans - Mr. Rajan stayed in a hotel = 5 days  
since 1 day = 24 hours  
so, 5 days =  $24 \times 5$  hours = 120 hours in the hotel  
so, 120 hours he stayed in the hotel.
