EX 12(A)

Simplify:

$$8 \quad 76 \div 19 \times 5 - 10 + 30$$

$$= 4 \times 5 - 10 + 30$$

$$= 20 - 10 + 30$$

$$= 50 - 10$$

$$= 40$$

$$9. \quad 7 \times 50 + 72 \div 8 - 225$$

$$= 7 \times 50 + 9 - 225$$

$$= 350 + 9 - 225$$

$$= 359 - 225$$

$$= 134$$
