

HW

1) Mention (give) characteristic Obs ~~of~~ Element.

Characteristic Obs Element:

- Homogenous in nature
- They are represented symbolically
- They have definite melting & boiling points
- They occur in three states - solid, liquid, gas
- They remain in atomic or molecular form

2) Why CO_2 is compound by (is an element)?

~~Why CO_2 is compound by (is an element)?~~

CO_2 consists of carbon and oxygen
~~which~~ which are both independent element combined
together in fixed ratio to form CO_2 .

But carbon is pure substance composed of
one type of atom.
