

The kingdom of Boobis

1) The two strange things the guru & his disciples find in the kingdom of Boobis are:

(i) People used to work in the night and sleep during the days

(ii) Cost of every item in the market was same, i.e. one dudder whether it is rice or bunch of bananas

2) The disciple decided to stay in the kingdom of Boobis because he was getting tasty food items in a very cheap cost. So he thought to enjoy his life by staying in that kingdom

No, it was not a good idea because all the people in the kingdom were boobis & they could be dangerous for them in future.

3) The merchant whose house was burgled - he was tried in the court because his wass was weak which fell upon the burglar & killed him

Bricklayer - he was tried in the court because of building a weak layer of wall.

Dancing girl - She was tried for distracting the bricklayer with her jingling anklets by walking up & down the road

The goldsmith-

he was tried in the court because she called the dancing girl many time to his shop & delayed in completing her order. He further blamed the merchant's father who forced him to complete his order first.
