Migratory Birds

Why these birds migrate and what are the most popular routes taken by these migratory birds.

→ The birds migrate to escape harsh weather, to search for food and to reach their breeding grounds. Some migratory birds are -> Arctic Tern, Brahma duck, European Stork, Siberian Cranes and pelican etc.

→ Many birds migrate long distances along a flyway.

• Bird Migration is One of nature's great wonders.

• The birds like the purple moorhen and the Pelican are local migratory birds of India.
