Over  
Nervous System

A. Tick (✓) the correct answer,

1. Our nervous system consists of the brain, the spinal cord and the

Ans - d nerves

2) A person might faint if his heart does not send enough blood to his

Ans - b) - Brain.

3) When we happen to touch a hot object, the sensory nerve immediately passes a message to the

Ans - a - brain.

4) To clean a blocked nose we must inhale

Ans - d - none of these.

B) Write (True) or (False)

1) The system that controls the other system is called the respiratory system.

F

2) The cerebellum coordinates the action of the muscles and makes them work together.

F

3) The actions controlled by the spinal cord are called reflex actions.

F

4) The part of the brain that controls our sense organs is called the cerebrum.

T

5) The motor nerves bring

messages from the sense organs  
to the brain or the spinal cord (F)

6. The pupil is an opening in our eye through which light enters. (T)
7. The ears enable us to keep our balance. (T)

C. Complete the series.

1. bundles of fibres : nerves ::  
taste buds : tongue
2. Memory : Cerebrum :: heart-  
beat : Lungs
3. Cerebellum : muscles :: Cerebrum  
: eyes, ears, nose, tongue <sup>sense organs</sup>
4. eyes : sight :: Skin : Sensation
