The message of the story

### The Christmas Truce

#### The message

Here in the story it is written about the World War I. It was started in 1914 and ended in 1919. The War was between the English and Germans. Here the ~~poor~~ soldiers signed up for the war thinking that it will end soon but now it was not. But just before the day of the Christmas Festival something unusual happened, there was no more firing at each other and there was only peace and happiness. There was a truce between both the nations and the war ended after celebrating Now, the end.
