A → Theory of plate tectonics

4A → 7

5A → glaciation

6A → Convergent boundary

7A → divergent

8A → ~~they can't~~ one plate may slide under the  
one plate may slide under the

9A → All of the above

10A → peninsula

11A → The peninsula plateau

12A → Gondwana

13A → Europe

14A → The Gondwana & plate tectonics of plates

15A → The Northern plains

16A → The Himalaya

17A → The peninsula plateau

18A → The Himalayan mountains

19A → The Himalayas

20A → The Himalayas

21A → The Himalayas

22A → The greater Himalaya

23A → Kanchenjunga

24A → Khyberpals

25A → ~~Pen~~ Himachal

26A → Karat

27A → The ~~Less~~ Himachal

28A → Shivaliks

29A → duns

30A → Kumaon Himalayas

31A → Javade and Shivalik hills

32A → Lakshadweep

33A → pass

34 A → Terce

37 → Both A and R are true R does not exclude A

36 → Mezoroom

37 → 8 jumps

35 A → Both A and R are true R is the correct except if A

39 A → Both A and R are true R is not correct except if A

40 A → IST, Bhutan, Meghalaya, gulf of myan

41 A → buns
