

1) Draw the diagram of brain and label the different parts.
(Cerebral Hemisphere)

2) How CNS, PNS and ANS are different from each other structurally and functionally.

4) The CNS makes the vertebral column present in the spinal cord well protected

The ~~form~~ PNS makes all the nerves which are spread throughout the body.

~~Q~~ The ANS ~~and~~ makes all the all involuntary heart's voluntarily work such as heart rate, dilation etc.
