Chapter - 20 - Save National Animals

The tiger is a national animal but it is endangered so different steps to protect them are;

- 1) conduct scientific research on tigers to help inform conservation strategies.
- 2) Forest Department training community programme & local NGO members should be trained to endangered tigers.
- 3) smart patrolling, "Project Tiger" the Govt of India should be apply.
- 4) stop shrinking food supply.
- 5) stop variety of activities shows in circus.
