Paragraph

Have you ever wondered what would be the aftermath if the world's oil reserves dry out? What will happen to our cities, our food and our over way of life? It will be the worst nightmare for the whole wide world creating chaos and panic through every nation - oil has been used as a modern economic fuel for more than a century. Imagine ^{if} all of this disappears - All the oil from the world dries out scarcity from Florida oil rigs to Saudi oil

the oil that Canada, the world, the

The world will experience a major economic

setback as all the oil that drives our

cars, fills our planes, powers our

factories and even the oil below the

ground vanishes
