Subject: Poor Condition of roads.

Sir

I would like to draw your kind attention towards the poor condition of roads in our locality. The roads are full of potholes & are very congested. These potholes get filled with water during the rainy season causing them to become the breeding of mosquitoes. Every other day, some accident or the other takes place on the roads due to these potholes.

So, through the letter of mine, I request you to take immediate action to improve the condition of the roads.

Thanking you
Yours sincerely

Gaurav
