igloo are temporary houses made

Match the columns.

Eric the Red

SISI miut

Arctic Circle

South - western coast

Kaayaks

boats

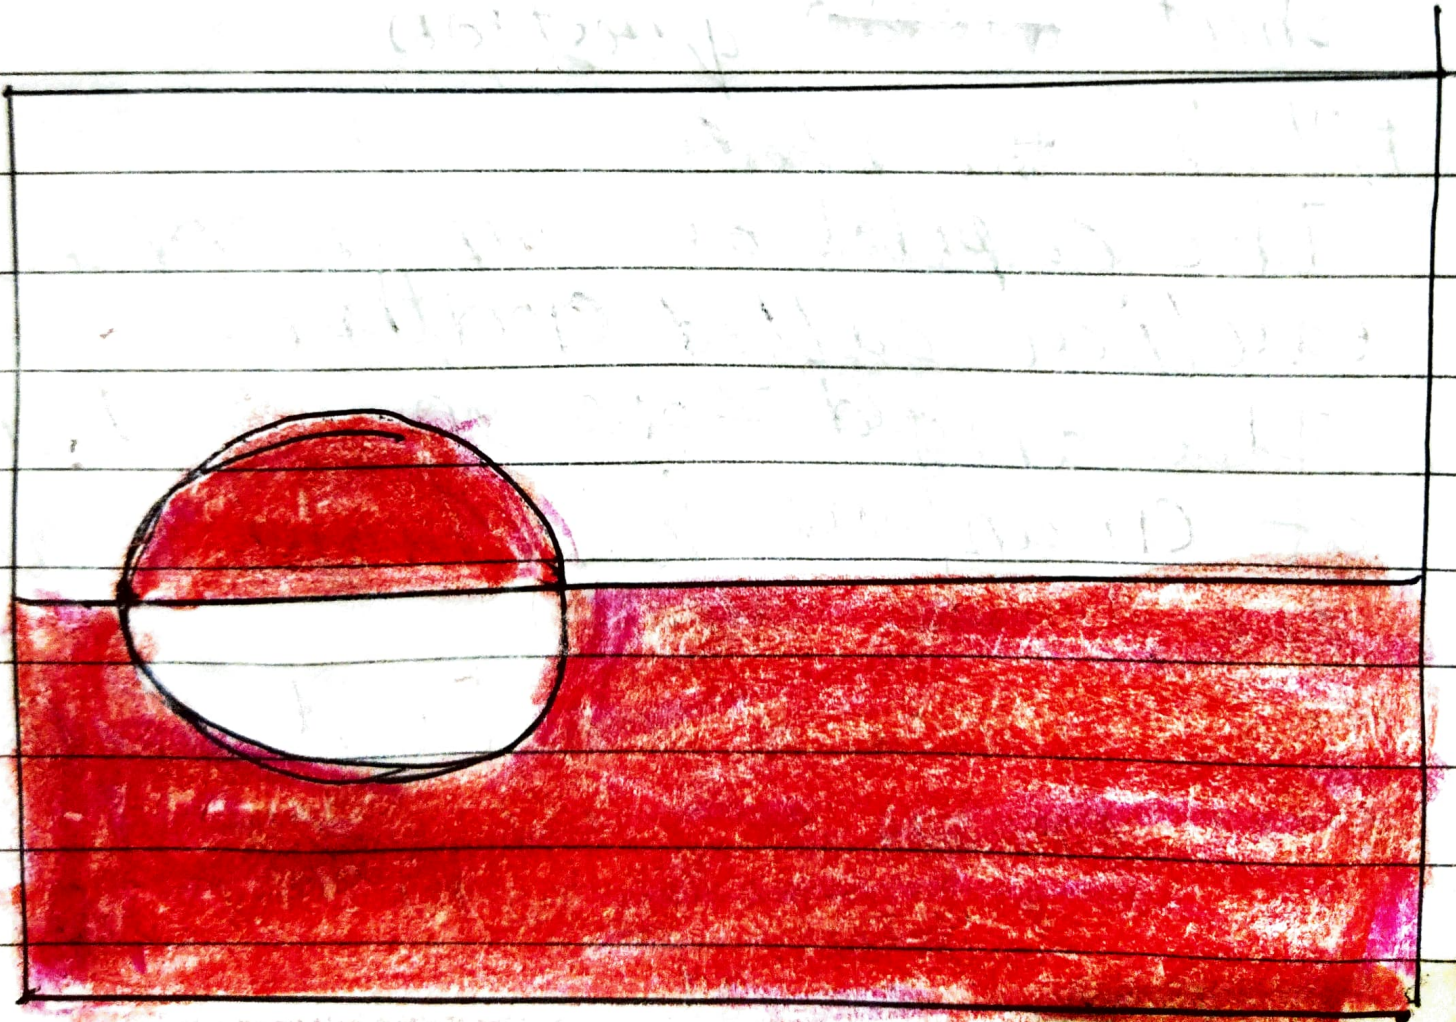

warmest part of Greenland

gave the name Greenland

passes through Greenland

town in Greenland

Elay of Green Jond

Q Why are icebergs also dangerous?
to for ships?

Ans A very large piece of ice floating
in the sea is called an iceberg.

They are dangerous because ice
This is because when an iceberg
floats on water, most of it
remains under water therefore
the pose great danger to ships in the
sea.
