Q) Write some of the adaptations of a camel and a polar bear.

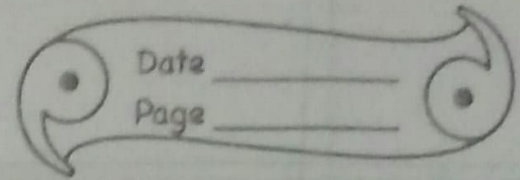

Ans-

Adaptations of a Camel

- * Camel lives in desert area.
- * They have thick skin.
- * Their body is not very hairy.
- * Thick skin of camels protect them from the heat of the sun.

Adaptations of a Polar Bear

- * A polar bear lives in the cold and snowy Arctic lands.
- * They are the largest land carnivores.
- * Their white fur helps them to blend in with the snow and ice.
- * The wide and large paws help a polar bear to walk in the snow.

* They have fat under the skin which is used as food in winter.
