

Paste the picture of your favorite space woman and write about her.

- ① Kalpana Chawla was an American astronaut and engineer.
- ② She was born in 17 march 1932 in Karnal which is a small town in Haryana.
- ③ She was the first woman of Indian origin to go to space.
- ④ She first flew on space shuttle columbia in 1997 as a mission specialist and Primary robotic arm operator.
- ⑤ Her second flight was on STS-107.
- ⑥ Final flight of space shuttle columbia in 2003.
- ⑦ She died in february 1, 2003 because her space shuttle disintegrated. Along with her 6 crew member died as well.

This was a great tragedy for the people of America and India.
