

HW
10/5/21

People As Resource

1) Complete the table given in page No - 21(2). Let's work these out page no - 21(3). Do you think the classification of economic activities into primary, secondary and tertiary is useful? Explain how.

2) In which year India has the highest literacy rates?

⇒ In 2011.

3) Why literacy rate is high among the males of India?

⇒ The literacy rate is high among the males of India because males and females are divided but literacy is the mixed of both male & female.

Yes, the classification of economic activities into primary, secondary and tertiary is useful. By GDP (Gross Domestic Product). This process has a good product for the three sectors.
