Subject:- The importance of following corona rules

Respected Sir,

Through the columns of your widely circulated daily, I want to highlight the importance of following the corona rules and protocols. During these times of corona, we need to be vigilant and follow all rules related to corona strictly.

People are known to wear masks on their neck. We all are very aware how India's corona patients have been rapidly increasing. Such careless behaviour leads to increase in number of corona cases. People should understand the impact of their actions have on their as well as other's families. If people have difficulties in wearing masks, then they need to tell concerned authorities so that they can make arrangements for more comfortable masks. Co-ordination of people along with government is highly essential to control corona spread.

Thus, I request you to publish it in your newspaper to make people of the city aware of the adverse effects of their actions.

Yours Sincerely  
Yogesh Singh.

Discipline is the key to success

- By Radhika

For success, being disciplined is a must

Discipline inculcated strong habits that are useful in every situation we face. Becoming a disciplined person starts from home where parents can play a critical role. Discipline means obedience to rules which are framed for the good of the individual and society. For anything there is a process and some rules that we have to follow, not for us but for the good of the society in which we live. A disciplined man lives an orderly ~~life~~ life and is a successful man. If there are no rules, no plan or no order in life then there will be confusion.
