Explain the statement, 'When a child loves you for a long, long time, not

just to play) with but Really loves you,  
then you become real.

Ans- The skin horse explained the rabbit that being real wasn't about how a toy was made. If a toy is tenderly loved for a long time, it becomes real. This change doesn't happen at once and takes a long time. Toys that have sharp edges, break off easily or have mechanical parts that stop working or break down, do not go through this change. The skin horse further explains that by the time a toy becomes real, doesn't look beautiful. All the love makes it shabby and threadbare. But it is worth as once a toy becomes real, it can't become unreal again.

Subject : Awareness towards COVID-19 protocols.

Sir,

Through the columns of your esteemed newspaper, I wish to make the people aware about COVID-19. We all know that how deadly the Corona Virus is. Its origin is China and it has infected the whole world now. The virus till now doesn't showed any sign of decreasing. The deaths due to this virus is increasing day by day along with infected patients. The whole world has stayed in lockdown or shutdown for decreasing the

infection of this pandemic. Everyone's lifestyle is affected by it.

But to overcome the situation, our Government has taken several major steps. They built up many isolation centres, introduced lockdown and shutdown. Government launched many guidelines regarding Corona Virus, like:

- \* We should always wear mask whenever we are going outside.
- \* We should always maintain 2m of social distance.
- \* We should wash hands when we come back from outside and carry a hand sanitizer with us.
- \* If someone of our family is showing any symptoms of Corona Virus, then they should be isolated and taken care separately. We should consult with the doctor.

The pandemic is now in a stable condition. Many countries have developed the vaccines of the virus. Due to this schools and working places are closed. Peoples are becoming jobless and spending time at home.

To overcome this situation it is our duty to follow the guidelines of the government. So, I request you to publish this letter in your newspaper to make people aware of the situation and act according to it. Public must wear masks, maintain social distance and wash hands to protect themselves from Corona Virus.

Thanking You,  
Yours Sincerely,

# Discipline is the Key to Success by Saswati

"Discipline is the bridge between goals and accomplishments."

In our life discipline plays a very vital role. Discipline is the most useful quality of a person. It means to act in an orderly manner. A disciplined person acts strictly in obedience to law & order or principle or an approved formula. Discipline leads to success. If we read in a disciplined way, we can master the subject. A disciplined life gives us health and happiness.

Without discipline, the life of a person will become dull and inactive. If we want to implement a plan in life then discipline is must. There are generally two types of discipline. First one is induced discipline and second one is self-discipline. Induced discipline is something that others

taught us or we learn by seeing others. While self-discipline comes from within and we learn it on our own self. Self-discipline requires a lot of motivation and support from others. Not everyone can be disciplined because it requires a lot of hardwork and dedication.

In conclusion, we can say that discipline is one of the key elements of anyone's life. A person can only be successful if they strictly live a healthy and disciplined life. Besides, the discipline also helps us in a lot of ways and motivates the person around us to be disciplined. Above all, discipline helps a person to achieve their success that they want in life.
