

# Tissue

1. Define Tissues?

A group of cells that are similar in structure and work together to achieve a particular function forms a tissue.

2. Why animals and plants have different types of tissues?

Plants are autotrophic and animals are heterotrophic, plants are stationary while animals are not. So the functions are different and to perform these functions they have different types of tissue.

3. Draw a well labelled diagram of meristematic tissue.

Ans In blank page.

# Meristematic Tissue .
