Favourite animals are ones, to whom we like most. My favourite animal is dog. There are many breeds of dogs. But I like German Shepherd so much. My dog name is Blackie and he is black in colour. He is 2 years old. His favourite food is milk and Chapatis. He has more ability to hear and smells than us. He doesn't allow any stranger to enter our

house. Specially at night no one dares to come in front of him. He is like a member of our family. We love him so much.
