22. Smallest 9 digit no - 10,00,00,000  
 greatest 8 digit no - 9,99,99,999  
 So the answer is 000000010000000000

23. Amount of money Rosy has = ₹54,00,000  
 Cost of the car = ₹12,50,000  
 Amount left with her = ₹41,49,000  
 So this ₹41,49,000 left with Rosy

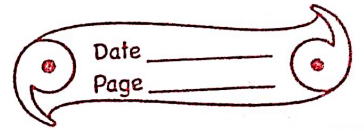

24. Population before 5 years ago - 41,37,100  
 Population in the present time - 60,48,991  
 Increased population in 5 @ years ago =

So Now the population 60,48,991  
 is 19,11,883 increased - 41,37,100

25. Number of women = 1,25,387  
 Number of children = 95,384  
 Total <sup>women</sup> and children = 2,20,771  
 Number of men = 3,48,311  
 So there are 1,27 - 2,20,771  
 540 men. In the 1,27,540  
 town.

26.

Number of students = 3748378

Number of passed students = 3197847

Number of failed students =

So ~~05,05,531~~<sup>50</sup> number 3748378

of students failed - 3197847

in the examination. 05,50,531

27. Amount of yearly income = 341879

The income of the wheat = 178411

Money earned by farmer from

Selling the rice = 341879

So the farmer earn 178411

₹ 1,63,468 by selling 1,63,468

the rice.
