

## # Thinking About It

1. What are the two strange things the guru and his disciple find in the kingdom of Fools?

The first strange thing observed by the guru and his disciple in the kingdom of fools is that people and even ~~also~~ animals slept throughout the day. All work was done during night only.

The second strange thing observed by them was that everything in the kingdom had the same cost i.e., one dudder. Whether it was gold or a bunch of bananas.

everything had the same value or cost

2. Why does the disciple decide to stay in the Kingdom of Fools? Was it a good idea?

The disciple decided to stay in the Kingdom of Fools because all the food available in the Kingdom cost the same price and was very cheap.

According to the Guru, staying there was not a good idea as they were all fools and he was not sure about what they would do in the future.

- The Goldsmith
- the dancing
- The merchant (time) became goldsmith

3. Name all the people who are tried in the king's court and give the reasons for their trials.

Following people were tried in the King's court,

- The merchant whose house was robbed because his house's wall fell upon the thief and killed him.
- The bricklayer who built a weak wall.
- The dancing girl because she distracted the bricklayer's mind when he was building the wall.

- The Goldsmith because he didn't complete the dancing girl's order on time.
- The merchant whose house was robbed (2nd time) because his father persuaded the goldsmith to finish the order.
