$$\begin{array}{r}
 \text{4) Ans No. of children} = 783 \\
 \text{No. of chocolate given} = 15 \\
 \hline
 \text{Total no. of chocolate} = 11745 \\
 \text{given} \qquad \qquad \qquad + 783 \times
 \end{array}$$

∴ 11745 chocolate given to the children on children's day

$$\begin{array}{r}
 \text{5) Ans No. of student in each sec} = 2345 \\
 \text{No. of sec} = 4 \\
 \hline
 \text{Students in all} = 9380
 \end{array}$$

∴ There are 9380 student in all in the school.

$$\begin{array}{r}
 \text{6) Ans) No. of beats in one minute} = 72 \\
 \text{No. of minute in one hour} = 60 \\
 \hline
 \text{No. of beats in sixty minute} = 4320 \\
 + 432 \times \\
 \hline
 4320
 \end{array}$$

∴ Total no. of beats in one hour is 4320

7 Ans) No. of chocolates in one box = 112

No. of boxes = 42

No. of chocolates in 42 boxes = 224

$$\begin{array}{r} 224 \\ + 448 \times \\ \hline 4704 \end{array}$$

∴ there are 4704 chocolates in 42 boxes
