Subject: Awareness towards Solar Energy.

Sir,

Through the columns of your newspaper, I wish to make noble aware of the growing need and demands for solar power. We all know that our earth is showing signs of a patient in declining health and this is due to the excessive pollution in our planet. We must conserve electricity which is the need of the hour.

Various kinds of solar power systems, various kinds of solar systems like solar cookers, solar cookers, solar lanterns and solar water heaters etc.,

These solar systems are non-polluting. They are economical and are available in different sizes. So, I request you to publish this letter in your newspaper in order to make people aware of the need for conserving electricity & limiting electricity bills. The public must pay attention to the need for switching over to solar energy.

Thanking you

Yours sincerely
Jomuti
