Q1. What was Napoleonic code?

Ans → Napoleon's codes (1804) were a set of civil codes that had to be practiced by the French society. The aim of the code was to reform the French society, in areas such as family, property, civil procedure etc. This code abolished the feudal system & freed peasants from serfdom & manorial dues as well as improvement in the transport & communication systems.

Q2. Explain the features of Napoleonic code?

Ans → (i) The Napoleonic civil code of 1804 did away with all privileges based on birth and established equality before the law.

(ii) Secured the right of property.

(iii) Abolished the feudal system & freed peasants from serfdom and manorial dues.

(iv) Napoleon simplified administrative division. Equality before the law was established. Right to property was given.
