

22.9.21

A world without oils

- 1 As oil prices keep increasing, mainly are looking to a future with-out oil.
- 2 It is hoped, that if oil prices keep rising, alternative will be developed and this will enable a smooth transition.
- 3 Already, cars manufactured have cars which run on hydrogen, natural gases even solar panel.
- 4 The longer oil prices rises, the more attractive these option will be.
