Dear Diary,

When in the kingdom of fools, it was a rule that days and nights will be vice versa, the farmers were suffering a lot. All they had to work during the day time but it was quite difficult to work during day time. The agricultural activities like sowing seeds, irrigation, threshing, winnowing and all these things were difficult to do during night ~~time~~ time. But after the king died, ~~was~~ all the rules are changed by the guru and we are living happily now.

Good night.
