Autumn Season

Autumn season is one of the four seasons. This season is pretty much different from other seasons. It starts right after summer and that's why we will feel enough hot at the beginning of the season. And then we will feel lots of coldness of winter season because right after autumn, winter gets a start. In autumn season trees ~~start~~ leaves start become red, yellow, orange or brown and the trees start shedding their ~~best~~ leaves. People also harvest many crops at this time. For ex. Cabbage, ~~potatoes~~ etc. This & In this season people also gather different types of fruits.
