Television was Invented by the scientist

J.L. Baird. It is the First electronic appliance

that can be used to watch movies, videos,

Tv Shows, and much more. Children prefer

to view the Tv all the time because of

the many entertaining cartoons they show

us. The earlier models of the Tv were

~~bulky~~ ^{bulky} and needed to be placed on a strong

and sturdy table. We should teach our

children about the reality of Tv because

television can affect the way a child acts,

thinks and feels about different issues

such as violence, education and gender equality.
