

The Footprints of the ~~rain~~<sup>rainy</sup> season - Autumn is  
a time for harvesting most crops. In this season,  
fruit is gathered. So, it is known as the fruit  
gathering season.

## Paragraph on Autumn Season

There are six seasons in a year. Autumn is one of them. It is third season of the year. It is composed of September and October.

Autumn is the ~~season~~ <sup>season</sup> after summer and

before winter. It begins with the autumnal

equinox and ends with the ~~winter~~ <sup>winter</sup> solstice

in December. Autumn is at war with the rain.

The sunny weather of Autumn wipes off
